A SELECTION OF THIS WEEK'S PRACTICE COMMENTS

Struggling with admin and reception illness. Patient demand increasing.

This week is half term so lots of annual leave and then staff also off sick. Lots of requests for visits - 12 visits already this week.

743 contacts phone and online combined = 61/1000. This does not include footfall / walk ins

A QUICK GUIDE TO THE GPAS STATES

-  **BLACK** Practice will fail within one month. Urgent system intervention required.
-  **RED** Sustainable in the short term. Needs system support.
-  **AMBER** Sustainable in the medium term (6 months max). Probably needs system support.
-  **GREEN** Fully Sustainable.

LMC NOTE:

We have had less than half of our practices report this week. We would encourage all practices to share their data with us so that we can ensure the system is aware of any capacity and demand concerns pertaining to General Practice.

(1) This figure is accurate and is the sum of the list sizes submitting from those Practices registering as amber, Red and Black

(2) This figure is approximate and calculated by using the clinical activity figure for Lancashire & Cumbria multiplied by 5
